

Dear Parent/Guardian,

Looking at the performance of our children and the support we get from parent at the front of home work there is a great hope that our children will attain the standard we want them to be. On 13/03/07 our school was inspected by the Ministry of Education inspector focusing on academic quality content and teaching methodology. We scored very highly and we got a big thank you. On 14/03/07 another school staff visited us for the purpose of first hand learning on how we teach the infants. We shared and learnt a lot from such networking. For parents who have computers at home please contact the office to get some educational software that can be very useful to your child while at home. How nice it can be to have fun at home while learning?

P.1

We are glad to say hello our dear parents. We thank you for supporting us more especially those who give us a hand when doing our home work. Just as you know "Our home" as our theme we have covered people in our home whereby we can spell and write the vocabulary. Currently we have started the activities done at home. We still need your help. Good News as we were sharing ideas in class our friends Aziku Emma, Mbarak Med and Kasalirwe Timothy happily informed us they got sisters. Congatulations to the mothers.

Sue Class (Top class)

This week we have been mastering how to write number words 0-5 and we are pleased with the assessment almost all the children in class could write the number words with out any problem except for a few who still have a problem but with time I believe all of them will be able to write them correctly. In English we looked at words of sound "a" where by children could read and write words like bag, bad, gap, e.t.c. We also looked at structural sentences and some of the sentences we constructed are; This is a bag, This is a cat, e.t.c. We would also like to thank the parents who have endeavored to help the children to do the home work please keep up the same spirit.

Reception Class

Dear parents, we want to greet you all and tell you what we have been learning this week. In numbers, they can count reliably numbers 1-5 and most at least can copy 1-3 correctly and in letters they can say letters a-d and they can write a-c properly. We would like to thank our parents who help our children at home that keeps up the strong foundation.

P. 2

By Ijuka Ian

In science we learnt about insects. In Agriculture we learnt about the growing of crops and the keeping of animals. In English we learnt about tenses. In S.S.T. we learnt about our school. I wish you a good week.

PARENTS CORNER

By Rose Nansamba Z.M.

Parent of Sava Maria (P3.) and Wasswa Deo (P.1)

I would like to express with pleasure my appreciation for the improvement of transport management for our children. I say big up!

May I congratulate you upon winning the status to be linked to the International NGO, Educational Opportunities based in America, absolutely this is because of your good working relationship that you have always exhibited and I must thank you.

I sincerely thank the NGO Executive director, Mr. Allan Barkley for the large heart when he donated a 21" Toshiba T.V, DVD, Story books, teaching aid CDs, many learning aids and promising to sponsor our children who excel, say in talent, character, and academic. This will encourage competition. May God bless him more and more!

Please also allow me to request you to give all children reading books because at the end of the day they fulfill the condition and when they do, they are not compensated. Please say yes!

With the above maintained, We MUST "Discover The Excellence".

Discover the excellence

P.3.

What we learnt last week
By Namata Immaculate.

We learnt about garden tools in Agriculture and we said that they are tools used in the garden. After using them we clean them and keep them. In English we learnt about a sentence and we said that a sentence is a group of words that tells a complete thought. In Science we learnt about Air and we said that it is a mixture of gases. Examples of gases are carbon dioxide, oxygen, nitrogen and rare gases. In S.S.T. we learnt about physical features. They are natural appearances of the earth; examples are mountains, valleys, lakes, forests, rivers, hills, streams, wells, plateau, swamps and vegetation. Examples of mountains are Mountain Elgon, Mountain Rwenzori, Mountain Mufumbira, all found in Uganda.

Kids Corner

What we learnt last week.

By Mbarak Latifa

In science we learnt about lice. We found out that there are 3 types of lice. They are Head lice, body lice and crab lice and we said the ways of preventing lice include bathing, washing dirty clothes. In English we learnt about when to use punctuation marks for example full stops and capital letters and we said that capital letters are used when writing names of people, countries and places. In Agriculture we learnt about crop pests for example banana weevil, maize stalk borer and birds. In S.S.T. we learnt about swamps and we said that swamps are areas where the water level is high and the water does not drain well. In Mathematics we learnt about changing roman numerals to Hindu-Arabic numerals for example iv 4, 500 D

West Ewell Class (Middle Class)

Last week in English we learnt three letter words basing on letter "b" e.g. box, bed, e.t.c. Children can identify the drawn pictures, read and spell simple three letter words correctly. In numbers, we learnt counting and circling objects 1-7, we also learnt simple shapes in general knowledge, most of our children can tell the shapes of objects found in class. We kindly ask you to help children at home whenever they are doing their home work and encourage them to write for themselves. Thank you.

The following names are of children who performed and behaved very well during the last week. These names are displayed on our Golden Tree.

Reception Class.

- Ndagire Maria
- Semugabi Umar
- Nasimbwa Tracy
- Kawesa Darlington
- Ikoyo Mercy
- Okurut Gabriel

Middle Class

- Nagawa Anna
- Prima Pimer
- Namata Cissy
- Byamugisha Barnest

Top Class

- Keronga Prisca
- Nasasira Joshua
- Akidi Faith
- Nakyajja Asumpter
- Nerimah Hannah

P.3.

- Gopika Joshi
- Biyinzika Mercy
- Kumbaine Jesse
- Mwanje Marvin

P1

- Kasalirwe Timothy
- Mbarak Mohammed
- Nkalubo Ian
- Nabwire Angella

P. 2

- Atugonza Joel
- Oposi Kelvin
- Nanyonjo Priscilla
- Assimwe Anita
- Atim Jeal

P.4

- Bakaki Cyrus
- Tumwebaze Chelsea
- Mbarak Latifa
- Kakembo Moses
- Nalunkuma Bridget
